Instructor
Teach the Masses.**

What Is Shattak ?

Shattak is a platform that helps mentors, trainers, and industry experts effortlessly host impactful masterclasses and workshops.

We take care of everything behind the scenes - **Marketing, Registrations, Payments, Technology, and Coordination.**

so mentors can focus on what matters most: Teaching and delivering meaningful learning experiences.

How Does it Work?

Pick Your Topic

.....
Choose your topic and outline your curriculum. Our team will review and help refine it.

Let Us Promote

.....
We create a full marketing campaign, bring in students, and manage all session logistics for you.

Deliver Session

.....
Lead your session while we handle everything and gather feedback to improve your future workshops.

YOUR EARNINGS AS A MENTOR

WE FOLLOW A 60-40 SPLIT FOR EVERY MASTERCLASS

60% GOES
TO THE
MENTOR

40%
GOES TO
THE
PLATFORM

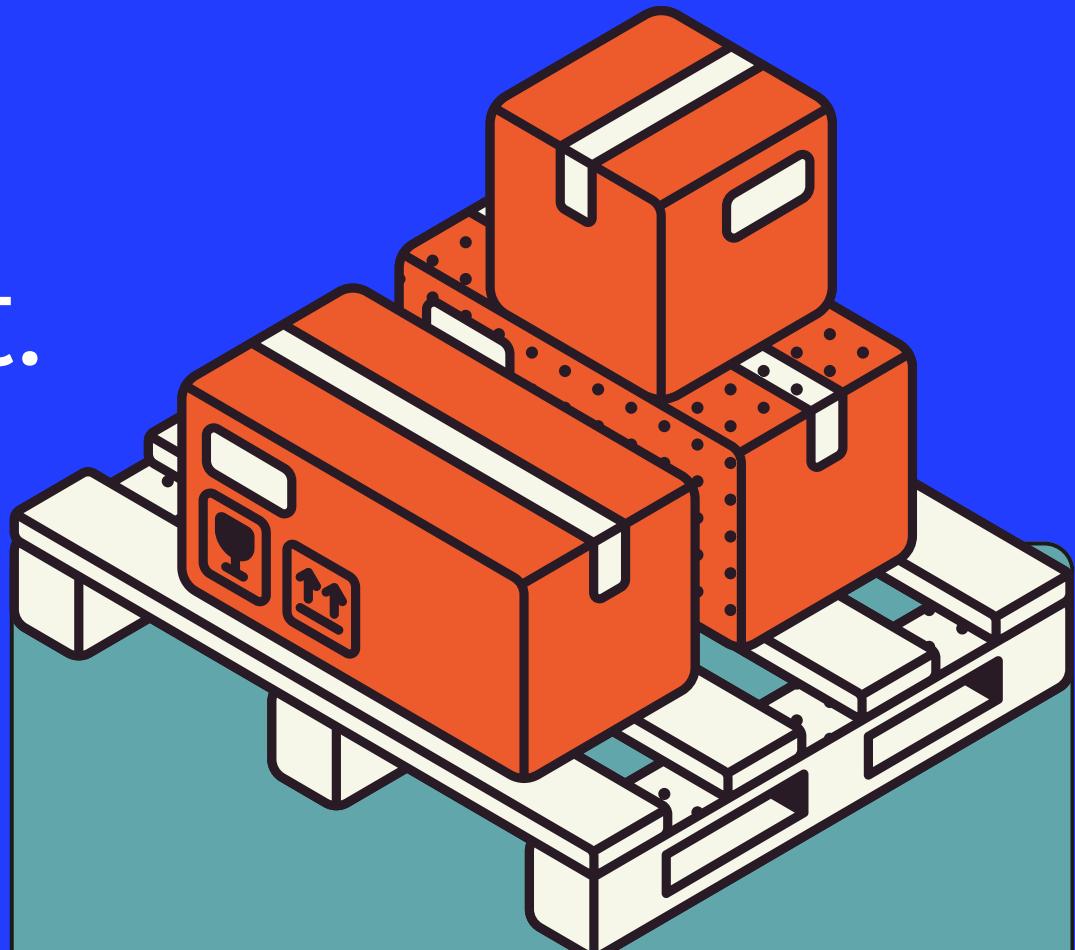

HOW MUCH YOU CAN EARN

Level / Example	Rate per Student	Class Size	Earnings per Class (60% Share)	Monthly Workshops	Monthly Earnings
Beginner	₹200	50 students	₹6,000	4 Masterclass	₹24,000
Full Timer	₹500	100 students	₹30,000	8 Masterclass	₹2,40,000
Offline Seminar	₹2,000	50 students	₹60,000	2 Masterclass	₹1,20,000

Your Curriculum Should Be Outcome Oriented.

After attending the session, students should be able to:

1. Either walk away with a completed project.
2. Gain clear problem-solving skills for a specific challenge.

As a mentor you have to make sure that

TOPIC CAN BE ANYTHING. THERE IS NO RESTRICTIONS.

Your masterclass topic can be anything, as long as it covers a complete chapter.

Choose a topic that ensures students can build something real or solve a specific problem by the end of the session.

EXAMPLE

Masterclass: Dynamic Programming Essentials

Not the entire DSA – only one skill area

Outcome

Students will be able to solve major LeetCode Problem on DP

Masterclass: APIs and API Integration

Not Full Back End Web Development – only API skill

Outcome

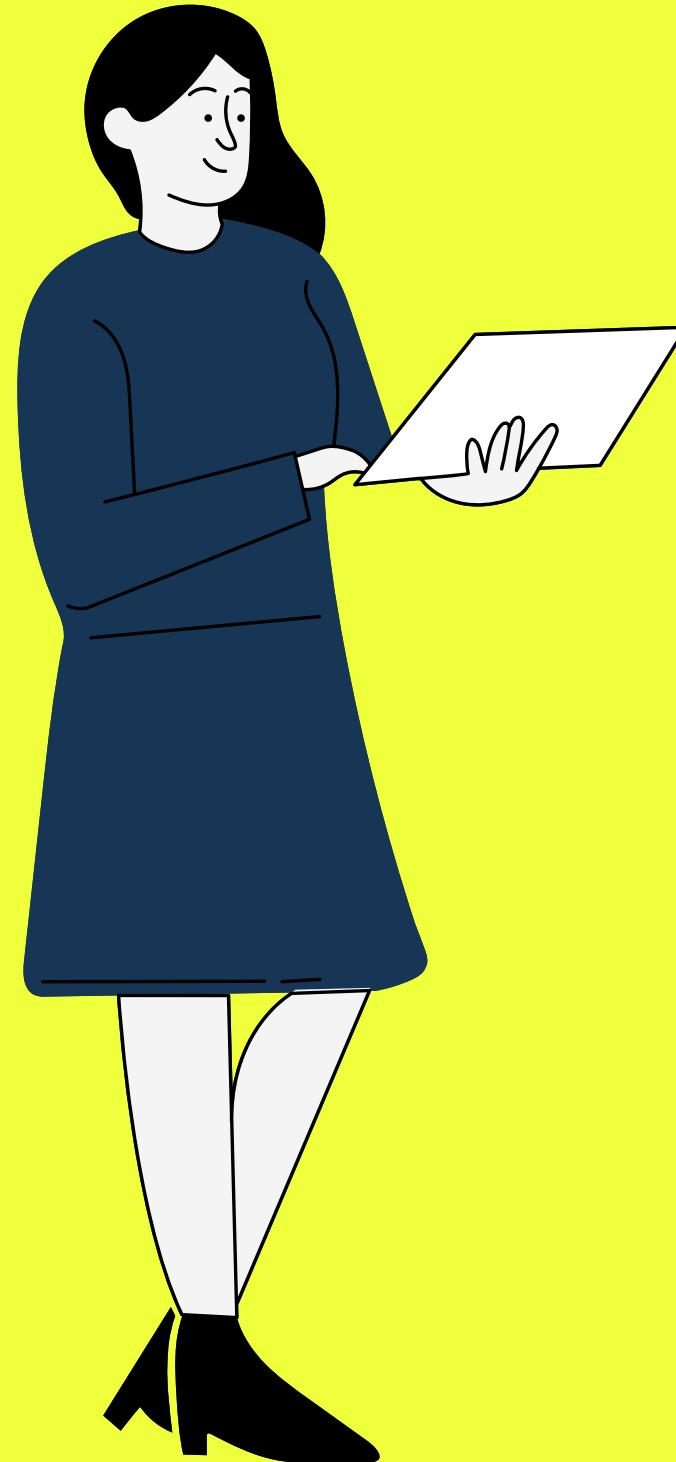

Students will learn how to call APIs, handle responses, connect frontend/backend, and build a small real API-integrated project.

Session & Curriculum Structure

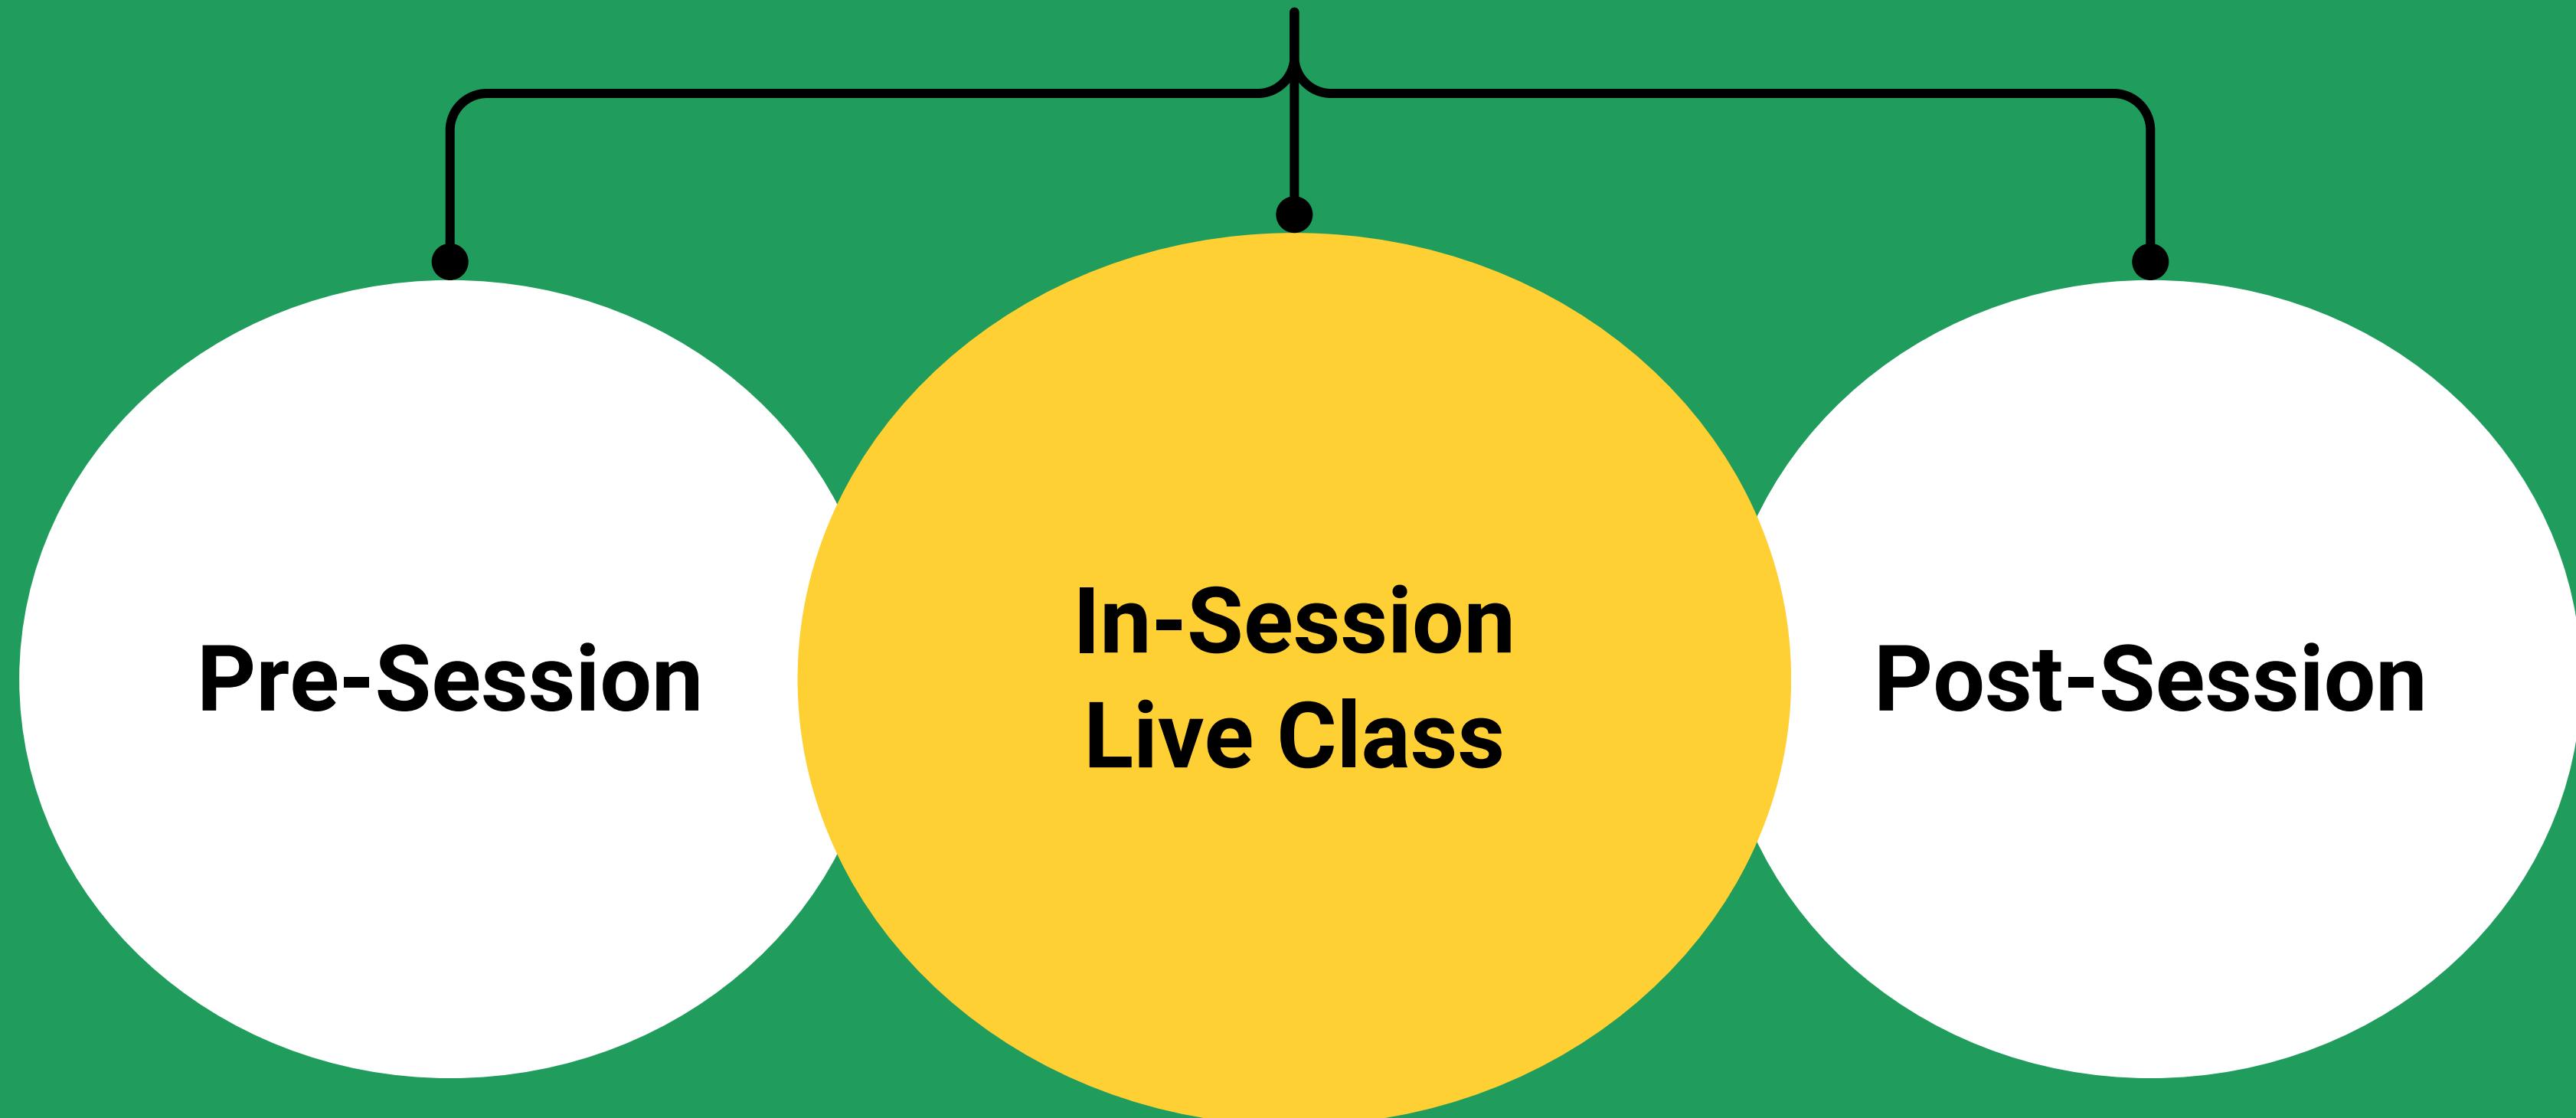

**Total Curriculum time
is Restricted To 12 hours**

Session Format

Duration	Timing	Breaks
1 Day	3 Hours	Without Breaks
1 Day	6 Hours	With Breaks
2 Days	3 Hours Each	Without Breaks
2 Days	6 Hours Each	With Breaks
3 Days	3 Hours Each	Without Breaks

The Session Will Be Divided Into Three Phases

PRE-SESSION

- Share study materials (PDFs, website links, reference notes).
- Conduct a short test or survey to understand the audience.
- Provide recorded videos or recommended YouTube resources.
- Guide students on required software installations and environment setup.
- Ask students to create accounts for the necessary tools or platforms.
- Inform them about anything important they should know beforehand.
- All points can be revisited again during the live session.

IN-SESSION

Cover the most important and high-value parts of your topic.

Conduct hands-on activities or live demonstrations.

Ensure every student is able to follow and understand.

Include short breaks and encourage questions or clarifications.

POST-SESSION

**CONDUCT AN ADDITIONAL DOUBT-CLEARING
SESSION FOR STUDENTS.**

**SHARE THE PROJECT OR ASSIGNMENT STUDENTS
NEED TO COMPLETE.**

**TAKE AN ONLINE EXAM TO EVALUATE THEIR
LEARNING.**

**MAINTAIN A WHATSAPP GROUP CONTINUOUS
